

“Why I Choose Express Care”

“The main reason I went with the Valvoline Express Care program was because I have believed in Valvoline since I was a kid. I was very impressed with the Valvoline team that helped me from the beginning, through construction, right up to the day I opened the doors. They have been with me every step of the way, and still are. I will also say their imaging has to be the best in the industry. They have super loyalty and customer retention programs. The on-line school for your Techs is very educational. Their pricing is very competitive with all the other major oil companies but again I believe the imaging and support are the best. I LOVE their pay for points program, anytime you are an owner and can get rebates back based on how much product you sell is great. My last word, if you’re considering a quick lube, you will only be hurting yourself if you don’t take a look at the Valvoline Express Care program. Good Luck.”

Terrance Elder, Express Care Owner - Attleboro, Massachusetts

We provide our Valvoline Express Care partners proven, simple, trusted solutions.
